Savoir-Faire"

- Cultural and artistic heritage

*PARIS*

# Exclusive tour of the « inner Versailles »

The Château de Versailles, which has been on UNESCO's World Heritage List for 30 years, is one of the most beautiful achievements of 18th century French art.

Each of the three French kings who lived there until the French Revolution added improvements to make it more beautiful. The Hall of Mirrors, the King's Grand Apartments, Kings bedchamber, sumptuous gardens with its huge fountains... To discover the Versailles Estate in all its glory (with Trianon Palaces and Marie-Antoinette's Estate), but also the Versailles life with its wealthy city center, we recommend to you a full day guided tour to take time to enjoy all these treasures.

Our suggestion: to visit the Château on the afternoon, you will enjoy better your private visit, with fewer visitors, and to explore the heart of the city on the morning. Your dedicated expert private guide selects exclusively for you some nice addresses designed to your interests and expectations: gourmet places such as the famous charming covered market, "Les Halles de Notre-Dame", nice pastries and bakeries with delicious chocolate "grand cru", macaroons, "caramel beurre salé", a charming delicatessen with various regional French products... Fashion shops with vintage boutique, some young designer creation, a typical French "boutique de décoration", shops for kids, art gallery with a selection of contemporary artists (painters, sculptors and photographers), art and crafts, antique dealers, etc...

Last but not least, discovering the newest place in Versailles with the court of scents, which has just opened! The privilege of this exclusive tour of the "inner Versailles": you learn about the history of the city, discover beautiful mansions and architecture while visiting the boutiques. You also meet the shopkeepers, Versailles inhabitants and talk with them about their know-how and lifestyle.

Experience this unforgettable and unique experience, full of emotions, encounters and discoveries!
